CNE Quiz: Improving Rural Geriatric Care through Education: A Scalable, Collaborative Project

1. Educational projects, such as the Improving Rural Geriatric Care through Education (iRuGCE) have the potential to address rural workforce issues related to:
   A. Employee satisfaction.
   B. Moral distress.
   C. Nursing shortage.
   D. Professional isolation.

2. A challenge in implementing the iRuGCE project was:
   A. Technology glitches.
   B. Time limitation for the site champions.
   C. Lack of support from hospital administration.
   D. Disinterested hospital staff.

3. Site champions promote evidence-based practice by:
   A. Serving as peer resources.
   B. Facilitating acceptance of new techniques.
   C. Evaluating practice deficits.
   D. Advocating for evidence-based practice.

4. Rural nurses face unique challenges related to:
   A. Length of commutes.
   B. Lower level of licensure.
   C. Higher patient to staff ratios.
   D. Demographic shifts.

5. Which feature of the project will improve transfer-ability to other settings?
   A. The logic model, time line, and specific activities tables.
   B. Appreciating the background and settings of care.
   C. Increased awareness and understanding of geriatric nursing practice.
   D. Using national reports to develop the materials for local use.

6. Rural older adults face unique health care challenges such as:
   A. Caregivers who live far away or are unavailable.
   B. Reduced access to care across the lifespan.
   C. Educational and economic disparities.
   D. Location of the closest health care facility.

7. The project was successful in changing which aspect of patient satisfaction?
   A. Cleanliness of the hospital environment.
   B. Responsiveness of hospital staff.
8. Critical access hospitals are defined by the:
A. Institute of Medicine.
B. Centers for Disease Control and Prevention.
C. U.S. Census Bureau.
D. Department of Health and Human Services.

9. The stated goals of the project were to:
A. Address nurses' lack of knowledge and certification.
B. Develop geriatric site champions and design site specific Continuing Education programs.
C. Provide financial and transportation support to the critical access hospitals.
D. Integrate improvements in geriatric care into selected facilities.

10. Which of the following in the iRuGCE project was a facilitator:
A. Site champions with time off to complete the program.
B. Critical access hospital resources to support the program.
C. Faculty with extensive expertise with distance technology.
D. Funding from the Pennsylvania Office of Rural Health.
