Letters to the Editor

"THE RIGHT STUFF" IS RIGHT ON
To the Editor:

I am a psychiatric nurse working in the community and read the article "The Right Stuff for Early Intervention in Psychosis: Time, Attitude, Place, Intensity, Treatment, and Cost" by Jane E. Hamilton Wilson, Heather Hobbs, and Suzanne Archie (Vol. 43, No. 6, pp. 22-28) and totally agree with it. I also have experienced this firsthand with a young family member and would love to know if there are any aftercare or follow-up services for young, newly diagnosed people. I feel there is a need for better services for young adults under 25 who have not been in the system and who have supportive families. I would love to hear from you if you know of any support systems you could tell me about.

Anonymous
