

## Information for Authors

### JOURNAL DESCRIPTION AND MISSION

*Research in Gerontological Nursing* is a forum for disseminating peer-reviewed, interdisciplinary, cutting-edge gerontological nursing research and theory to investigators, educators, academicians, clinicians, and policymakers involved with older adults in all health care settings. The Journal accepts manuscripts reporting research, theory, integrative and systematic reviews, instrument development, and research methods with the aims of improving the wellness and quality of care of the older adult population. Theory papers should advance gerontological knowledge, and integrative reviews should provide an analysis of the state of the science and provide direction for future research. The Journal adheres to the Uniform Requirements for Manuscripts Submitted to Biomedical Journals (2010) of the International Committee of Medical Journal Editors.

### TYPES OF MANUSCRIPTS AND REQUIREMENTS

The Journal publishes reports of research, theory, and instrument development; integrative and systematic reviews; major experimental/quasi-experimental studies; and qualitative studies, as well as Research Briefs and Focus on Methods. Research Briefs are reports of small-scale studies (e.g., pilot work, feasibility studies) that may stimulate further study or alert other investigators to work in progress. Focus on Methods papers describe challenges and solutions to conducting and/or analyzing gerontological research. Papers that provide new information on cutting-edge research methods or provide solutions relevant to conducting gerontological research are encouraged. Reports of intervention studies are welcomed, and applicable articles may be highlighted as Featured Intervention Studies at publication. Length requirements are provided in the table below.

LENGTH LIMITS FOR SUBMISSIONS			
Type	Text Words	References	Graphics
Reports of major experimental/quasi-experimental or qualitative studies	5,000	40	3-5
Reports of research, theory, or instrument development	4,500	40	3-5
Integrative or systematic reviews	4,500	40	1,400 words
Focus on Methods	3,000	25	3
Research Brief	3,000	25	3
Letter to the editor	500	5	0
Note. Graphics include tables, figures, and appendices. Exceptions may be possible, at the Editor's discretion.			

All manuscripts must include an APA-style abstract of approximately 150 words with a focus on findings and conclusions. References should emphasize the most recent and relevant works.

### MANUSCRIPT SUBMISSION

Manuscripts must conform to the guidelines for manuscript preparation of the *Publication Manual of the American Psychological Association*, 6th ed. (2010). ALL uploaded manuscript files should be devoid of author identification (e.g., name, institution), including title page, to facilitate blind peer review. To ensure blind review, do not include citations associated with the submitted or previous work that could identify the authors; instead, use (Author & Co-authors, Year). Published, submitted, or in press articles by the authors on the same topic should be disclosed to assure no potential duplication. All pages should be numbered. Manuscripts should be submitted electronically at [www.RapidReview.com](http://www.RapidReview.com).

If applicable, authors should describe the role of the study sponsor, if any, in study design; collection, analysis, and interpretation of data; writing the report; and the decision to submit the report for publication. If the supporting source had no such involvement, the authors should so state. If applicable, authors must declare whether they had assistance with study design, data collection, data analysis, or manuscript preparation.

While RGN does not specify particular items in the CONSORT checklist that are mandatory for inclusion in the manuscript (e.g., Flow Diagram is not required), their website may be helpful: [www.consort-statement.org](http://www.consort-statement.org). PRISMA

guidelines ([www.prisma-statement.org](http://www.prisma-statement.org)) may be helpful to those authors planning to report a systematic review or meta-analysis. COREQ guidelines may be useful to authors reporting qualitative research using interviews or focus groups.

Reports of studies involving human subjects must indicate procedures for the protection of their rights, as well as IRB approval. If academic, hospital, organizational, or institutional affiliations are mentioned, it is the responsibility of the authors to obtain written permission from the proper authorities (e.g., dean, director) to use the names of such. If the manuscript reports on a registered clinical trial and has been assigned a trial registration number from a public trials registry, please provide this information.

### IMAGE REQUIREMENTS

If photographs are submitted with a manuscript, permission to publish must be obtained in writing from all individuals pictured. Drawings or computer-generated images submitted with a manuscript require permission to publish from the artist. In case studies involving actual people, their written release is required.

Digital images should be high resolution (at least 300 dpi) and saved in JPEG or TIFF format. Image files should be uploaded separately from manuscript text files; images embedded in Word files and PowerPoint® slides are not acceptable.

### COPYRIGHT AND PERMISSIONS

Manuscripts are considered with the understanding that they are submitted solely to *Research in Gerontological Nursing* and have not been published previously.

Authors must inform SLACK Incorporated if tables, photos, or illustrations have been previously published, whether by the author or another entity. Material reprinted from other publications (including electronic media and the Internet) must be accompanied by a letter of permission from the publisher, which extends non-exclusive worldwide rights to reprint the material for all forms of media now or hereafter developed to SLACK Incorporated. Content from U.S. government websites (e.g., NIH, CDC, USDHHS) is in the public domain and generally can be used without permission. However, some content on these sites may be from another source, in which case permission must be obtained from the copyright holder.

Before any manuscript can be considered for publication, the Author Statement must be completed in full, signed, and dated by each author. The Author Statement can be found in PDF format online at [www.healio.com/rgn](http://www.healio.com/rgn).

### PEER REVIEW

*Research in Gerontological Nursing* is a selective juried publication employing the blind peer review system. All submissions will be rigorously evaluated using the following criteria:

1. The importance and relevance of the topic to gerontological nursing care; the generalizability of the ideas/research findings.
2. Readability; concise, logical ordering of ideas.
3. Sound rationale for ideas, including background.
4. Adequate documentation of ideas; citation of recent and relevant literature.
5. Appropriateness of inquiry methods, including design, sample, instruments, and procedures, if research.
6. Accuracy of content; soundness of conclusions.

Following unbiased review by the Editorial Advisory Board, Review Panel, and Editor, authors will be notified by e-mail of the manuscript decision. It is recommended that novice authors have their manuscripts reviewed by their well-published peers, instructors, or mentors prior to submission.

Upon publication, the Journal reserves the right to edit manuscripts, delete extraneous or excess material, and change or add titles and headings. It is not Journal policy to provide monetary compensation for articles. Complimentary copies of the journal issue in which a published article appears will be mailed to the corresponding author.

### LETTERS TO THE EDITOR

The Journal accepts letters to the Editor about previously published articles or other topics relevant to gerontological nursing research. Letters may be edited for clarity or length, and may be submitted to the article author for a response. Letter authors must disclose any competing or conflicting interests, if applicable. Letters should be e-mailed directly to the editorial office at [rgn@healio.com](mailto:rgn@healio.com).
